
FUJI PRESCALE PRESSURE MEASURING FILM

ADDENDUM

Package of Prescale film single sheet type

Prescale films supplied as single sheet type (eg. MS or HS), will be supplied together with a further protective PET coating. The PET transparent coating is water and oil proof so it could be useful for test where the sensitive layer of the single sheet *Prescale film* type will be used in presence of water or oil. Place PET protective coating facing *rough and opaque surface side of Prescale film*.

Nuance of Prescale film colour aspect

Two sheet type

<i>Film type</i>	<i>A film</i>	<i>C film</i>
<i>Ultra Super Low Pressure (LLLW)</i>	<i>creamy</i>	<i>whity</i>
<i>Super Low Pressure (LLW)</i>	<i>yellowish</i>	<i>whity</i>
<i>Low Pressure (LW)</i>	<i>bluish</i>	<i>whity</i>
<i>Medium Pressure (MW)</i>	<i>reddish</i>	<i>whity</i>

Single sheet type

<i>Film type</i>	<i>sensitive film</i>	<i>protective sheet</i>
<i>Medium Pressure (MS)</i>	<i>a little reddish</i>	<i>colorless & transparent</i>
<i>High Pressure (HS)</i>	<i>whity</i>	<i>colorless & transparent</i>
